Do you have a web presence?

Insurance web design solutions that work for your business.

T.R. Web Wizard is a web design company that specializes in professional websites and search engine marketing for insurance agents. Not only do we specialize in websites for agents the owner is also an active insurance agent and Certified Web Developer with over 10 years of experience in web design.

We offer high quality, custom, user friendly and most of all affordable website solutions so that you can expand or create an online presence without breaking the bank. Our modern and professional designs will not only establish your web presence but will also help you increase sales and give you a major boost in credibility. So, that you can look like one of the big companies — without having to have the budget a big company.

Statistics show that the Internet is an excellent way to market your business and sell insurance products. More and more customers are logging on, making purchases, buying services and researching choices and insurance information through the Internet.

If you have a poorly designed website or no website at all you could be missing out on online valuable sales opportunities every day.

Don't you think it's time for a change?

Why Choose Us?

Here are 7 Good Reasons why you should choose us for your next web design project.

1

We understand insurance.

The owner and lead web designer is an insurance agent of over 5 years with 10+ years experience in web and graphic design so we know what it takes to make your insurance website a success.

2

Unique & completely customized websites.

We create 95% of our insurance websites from scratch. No "cookie cutter" or "ready-made" websites. We understand that one-size does not fit all and strive to design a website that will give your business a unique look and separate you from your competitors.

3

Basic Search Engine Optimization is included in every website package.

We understand the importance of marketing your website on the web. That's why we include basic SEO in every website package to get you started.

4

Low monthly website maintenance options.

We offer 3 low cost website maintenance options to keep your website current and problem free.

5

Search engine friendly website design.

We design and code all of our websites so that they can be crawled by the search engines easily.

6

High quality graphics and images.

We only use high quality graphics and images. In our opinion, websites with poor graphics look cheap. You will never see distorted or fuzzy graphics or images on any of our websites.

7

Competitive pricing and no monthly fees.

We've designed our packages to be full featured while being cost effective. You won't find a lower costing insurance web design service that offers the same quality, functionality or service.
